

HICKMAN COUNTY GOVERNMENT

REQUEST FOR INFORMATION

Hickman County Government maintains many public records that are made available for public inspection. Some files and documents, however, are stored in other places. Additionally, because of work schedules, employees may not be able to assist you immediately with your request to inspect a certain file or document. Because of this, we ask that you fill out the form below stating which files and/or documents you wish to see. Exact dates and document titles would greatly aid us in providing you with the correct information. We will make the requested information available for your inspection within seven (7) working days and contact you when they are available. Copies of most documents may be obtained for a fee of \$.25 per page. Charges will not apply to county officials.
